

## NCSE Special Education Research Initiative (SERI) 2006

The aim of the initiative was to grant aid educational institutions and others to undertake research activities in the field of special education. The NCSE was particularly interested in supporting practice based research.

Colleges, universities and others were invited to submit research proposals under a number of thematic areas and funding was awarded on a competitive basis. The themes identified included: inclusive education; in-school issues; and policy issues. Some of the projects which received funding support under this initiative are listed below.

The NCSE funded this research under the Special Education Research Initiative.

Responsibility for the research (including any errors or omissions) remains with the authors. The views and opinions contained in these reports are those of the authors and do not necessarily reflect the views or opinions of the Council.

· **Parents of Children with Autistic Spectrum Disorders (ASD): A Survey of Information needs.** Tara Murphy and Dr. Kevin Tierney. School of Psychology, TCD.
