

The Cooker

There are three parts to a cooker: hob, grill and oven

Hob- the hob heats the base of pots and pans cooking the food in the pot/pan.

What kind of food can we cook on the hob?

Grill- form of cooking that involves dry heat applied to the surface of food. It suits thin cuts of meat, what else could you cook under the in the grill?

Oven- it is used for heating, baking, cooking or drying of foods. Can you think of foods you cook in the oven?
