

## Seasonal change

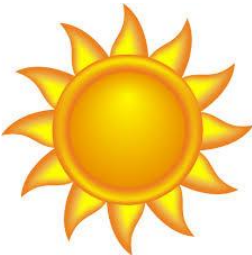

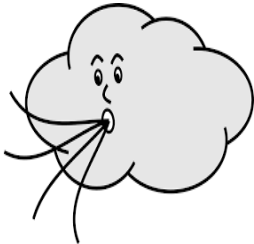

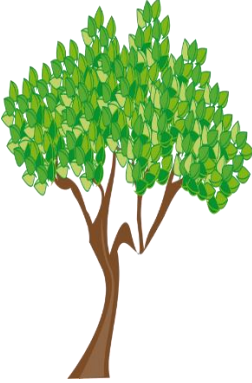

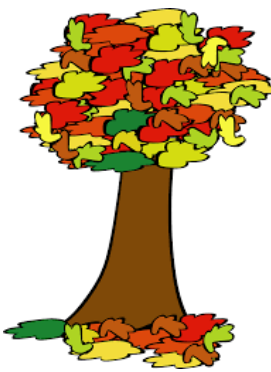

To introduce the topic of change to children, use the four seasons to show how we experience change every year when one season ends and another starts. We experience change in many ways with the weather, the clothes we wear, nature and we also enjoy different traditions in every season.

### Winter

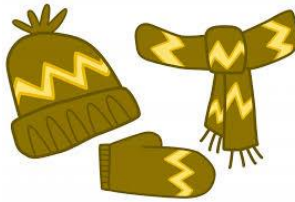

### Spring

### Summer

### Autumn

<p>It is wet and cold</p> 	<p>There are rain showers</p> 	<p>It is warm and sunny</p> 	<p>It is windy and cold</p> 
<p>The leaves fall off the trees</p> 	<p>The leaves grow back on the trees</p> 	<p>The trees are full of leaves</p> 	<p>The leaves turn red, orange and brown and fall off the tree</p> 

We wear warm clothes

We need a raincoat and umbrella

We wear t-shirts

We wear wellies to jump in the leaves and puddles

We celebrate Christmas time

We see Daffodils growing

We eat icecreams

We celebrate Halloween
