

My Going Back to School Book

A resource for tutors/teachers to support the Home or School Based Summer Programme

This resource can be co-created with input from parents/guardians, families and schools. Using meaningful photos of a student's real school/classroom/teacher may be supportive for some children to fully engage in the process.

The 'Going Back to School' book can be shared with home and school and can support students to actively think about re-connecting with their school environment and the people in their school after the summer break.

This resource will can be amended to suit an individual student as needed.

This resource can be used to support students in terms of a sense of safety, calm, hope and social-connectedness around returning to school.

My Going Back to School Book

Name:

This is my school.
